About me

I'm a young software developer with a rich background in various fields such as web, mobile and backend development as well as teaching, entrepreneurship and more.

Aspiring to make a positive impact on the world.

Currently based in Ljubljana, Slovenia.

Education

Fakulteta za Računalništvo in Informatiko, Univerza v Ljubljani

Started: 2023
Graduating: 2026

Title: Bachelor of Applied Science (B. A. Sc.)

Location: Ljubljana, Slovenia

Website: fri.uni-lj.si

Vegova Ljubljana

Started: 2018
Graduated: 2023

Title: Computer Technician

Location: Ljubljana, Slovenia

Website: vegova.si

Experience

Co-Founder | Feb 2023 - Current
Aerio (Slovenia)

A startup founded by my colleagues and I specialising in custom software development for various types of clients.

I take on organisation of the projects as well as the development.

Skills: Leadership, Flutter, TypeScript

Website: aerio.tech

Software Developer | Mar 2022 - Current
eAsistent eŠola d.o.o. (Slovenia)

As a software developer at eAsistent I have worked on three mobile apps used by tens of thousands users every day.

The apps were made in the React Native and Flutter frameworks.

Skills: React Native, Flutter, TypeScript

Website: easistent.com

Languages

Slovenian
Native

English
Fluent

German
Limited Working proficiency

Digital Skills

Front-End:
- HTML/CSS/JS
- TypeScript
- CSS Frameworks
- Java
- Kotlin
- Swift

- React.js
- Svelte(Kit)
- Vue.js
- Flutter (Dart)
- React Native
- Android

Back-End:
- Dart
- TypeScript
- PHP
- Go
- C++
- Rust
- SQL

- Firebase
- Supabase
- RESTful
- GraphQL
- NodeJS
- NestJS
- Strapi

- PostgreSQL
- MariaDB/MySQL
- MongoDB

CS Teacher | Sep 2023 - Current
Vegova Ljubljana (Slovenia)

After completing my education at this institution, I took on a small teaching role. I teach the practical class for a computer science subject that covers:
- Computer-Person interfaces
- Communication with clients
- Agile principles
- Web design (HTML, CSS, JS)
- Kernel image processing

Skills: Computer Science, Teaching

Website: vegova.si

Software Development Intern | Jun 2022
Identisoft (Portugal)

I worked on implementing the MINTTI Vision Java SDK into an Android application used to communicate with and control the MINTTI Healthcare device.

Receiving and displaying information about blood pressure, blood glucose, body temperature, SPO2 and graphing ECG.

Skills: Java, XML, Android

Website: easistent.com

Software Developer | Nov 2020 - Mar 2022
IPM Komunikacije (Slovenia)

Worked on a video sharing platform built in Vue.js using Strapi as the CMS and a mobile tour guide built in Flutter also using Strapi as the CMS.

Skills: Vue.js, Flutter, Strapi

Website: ipm-komunikacije.si

CTO & Co-Founder | May 2021 - Nov 2021
Fundl | More4Youth d.o.o. (Slovenia)

In the Fundl startup my team from Aerio and I developed the entire technological solution for the platform, which covered a mobile and web application, website, administration panel and the entire backend system.

Until the startup was shut down due to internal complications, our solutions handled massive scaling difficulties (10.000 users gained in <1month) without any trouble.

The code is now open-sourced.

Skills: Leadership, Flutter, NestJS, React

Website: github.com/aeriotech/onedl

Tools & other:

- Shell (bash, zsh, ...)
- Linux
  - Arch
  - Debian-based
  - RHEL-based
- Git
- Figma
- Postman/Insomnia

Lead Developer | Jun 2019 - Aug 2021

YFLab d.o.o. (Slovenia)

At the YourFlare startup, that progressed into the company YFLab d.o.o., my initial task was to create a web app for clients to use as their main tool to interact with our product. Later on, we wanted to create a mobile app, so I took on that task and started the development of our mobile app in the Flutter framework.

After being a developer at the firm for less than a year, I was presented with the task of overseeing the development, along with the creation and maintenance of the internal tools used for business processes.

Skills: Flutter, React, NestJS, Leadership
